

REGIONAL REPORTS

BLUE BARS

SPRING
1986

MIDWEST REGION

Well, competition has finally ended for 1985, but I notice it is already time to get the Corvette out for 1986 events. Winter sure was short.

This season promises to be just as fast paced as last year. It seems I only got last year's Regional Runoff results, and I'm announcing that we have received a bid from Badger State Corvette Club for the '86 Runoffs.

This season promises to be just as fast paced as last year. It seems I only got last year's Regional Runoff results, and I'm announcing that we have received a bid from Badger State Corvette Club for the '86 Runoffs.

I am happy to announce that we have a new club in the region. They are called F.O.M. Corvette Club and they are located in Minneapolis, MN. Byron Bode, an enthusiastic Corvetter, is their governor.

The 1985, Midwest Region Championship Series was run on October 5-6, in Milwaukee, WI. The concours was extremely competitive and the quality of the cars has improved again. There is a rumor that some entrants are still traveling the streets of Milwaukee looking for the event, but for the most part, all went well. Winners are listed below:

The MWRCS Rallye was exceptional. There were 9 entrants and, as far as I know, only 2 got hopelessly lost. Credit for an outstanding event goes to Steve and Lauralynn Southworth of Wisconsin Corvette Club for an extremely challenging event. The winners of the rally were Don and Rose Schmidt from WCC. Congratulations are definitely in order here.

The MWRCS gymkhana was run at DELCO on Sunday morning. Typical fall Wisconsin weather prevailed—sunny, but damn cold. For those of you who haven't seen this parking lot, it's big and the drivers are really challenged—this event was no exception, with many class winners being decided by less than a second.

In addition to all the competitors, congratulations go to all the Badger State and Wisconsin club members who put on a great Championship Series.

Remember, the only way you can get there next year from here is to get out there and get qualified.
