WINDY CITY CORVETTES

BROOKFIELD ZOO

Windy City Corvettes supported the Brookfield Zoo by participating in the Zoo's 2005 Holiday Magic celebration. There are over 300 small Christmas trees that line the walkways around the Zoo. Companies, communities and clubs each donate approximately $200 for each tree. The trees are lighted at night and they open the Zoo on weekends at night. It is very impressive to visit the zoo and see all of the trees lighted.

As a sponsoring organization Windy City Corvettes was assigned Christmas Tree No. 343 to trim. Bob and Nancy Burns and Ken and Cindy Jastrzab spearheaded the event. The Burns took pictures from the Club Web Site and laminated them as ornaments. The Club donated a number of Windy City Corvettes decals which Ken Jastrzab affixed to the large plastic ornaments. Carol Galassi donated the C4 emblem to be used for the star atop the tree.

On November 20th a number of Members got together to trim the tree and had a great time. After the trimming, they went out to a very nice dinner. The club will be returning to the Zoo in mid-December to visit the tree, see the zoo after hours when it is lighted and to also have an after-event dinner.
