The 2024 season sure was a busy one. I made new friends, and met up with those I hadn't seen for a year. I love working corners - the busier the better (for me, not the drivers!). Thank you for making me run. It is my goal to keep the cars going with as few "hold starts" as possible.

I am humbled to be the first NCCC Mens Worker Champion. Many of you know that I do the timing for all the autocross events in the Midwest Region, so this came about quite by default. Shout out to the real workers - those that set up the course, do registration and tech, and chase cones all day in weather that may change from blazing hot to cold and rainy. Those are the heros!
