

Here is a short history of the trailer. Until 1999 Pat and I autocrossed a fair amount but then retired from that. I think since that time we autocrossed less than a half-dozen times and used it to go to a few NCCC Concours in the Chicago and Milwaukee area. It's a nice small trailer that tows great but we just don't use it anymore except to store a Corvette in our garage. More details upon request.
